ABOUT US

Sunvee Trade International was established in the year 2014 as a high-class machine-oriented trims and accessories unit within the Sunvee Trade International. In 2014, Sunvee Trade International expanded its accessories hub and delivers today complete packaging, apparel branding and supply chain solutions. Sunvee Trade International aspires to be the one stop accessory hub partnering with global brands and manufacturers, supporting brand identity by adding value into the supply chain process.

Management & Organization

The overall management of the company is running with its Management Board. The Board decides and formulates policies and provides guidelines to the managers, officers and Executives for smooth operation of the company. Being the Managing Director is looking after the overall management of company. The official of the company is responsible to the managing Director for smooth & efficient functioning of the Organization. Qualified and experienced Technical, Administrative Marketing, Accounting, Commercial Professional are working in this Organization.

Our Mission

We want to provide backward connection support to the countries bustling export-oriented industries. There are thousands of garments industries around the world but our missions set us as a unique one among them. We always point on maintaining several factors; like establishing good relationships with valued customers, manufacturing garments accessories that consistency meets international standards, delivering consignments according to the terms of the customer order, with regard to deadlines and other such conditions. Supplying facilities related to the product and the workers who work there, as well as controlling the systems and delivery. Because from the inception we had a policy to popularize Garments accessories effectively and distribution regards to the customer demands.

Our Vision

If you are born, you have to die, if you live, you have to Buy. with this very simple policy, our vision is to inspire its employees to be the best they can be. Vision the company Sunvee Trade International holds is strictly following the latest fashion trends and industry needs offering world class products using advanced technologies, and always adhering to on time deliveries. To be a top manufacturer of quality Ready Made Garment product in international market, by fulfilling their customer, human capital as well as their business partners. We are dedicated to helping the nation with organizing financial solutions, through creating jobs to the unemployed and gaining important overseas exchange.

NARROW FABRIC	LINGERIE ELASTIC	RIBBON AND ELASTIC EMBOSSED	BRA CUP & SHOULDER PADDING	RHINESTONE & STUDS SETTING	SOLID GUM TAPE
• Crochet Elastic • Jacquard Elastic • Drawstring • Needle Loom • Rib Tapes • Twill Tapes • Grossgrain Tapes • Elasticated Drawcord	• Bra Hook & Eye Closures Picot • Elastic Straps Drawstring • Decorative Lingerie Trims • Fold-Over Elastic (FOE) • Transparent Strap Elastic • Velet Elastic • Bra Strap Elastic • Plush Back Band Elastic (Plush Elastic) • Underwire Channeling (Casing)	• Geometric & Textured • Logo & Branding • 3D Effects	• Thermoformed from a single piece of fabric or foam • creating a completely seamless design that naturally mimics the shape of the breast. • Triangle Bra Cups, Round Bra Pads, Molded Foam Cups, Silicone Nipple Covers, Shoulder Pads	• Rhinestone Fringe Applique • Rhinestone Motif Sticker • Alphabet Rhinestone • Studded Fabric • Abstract Rhinestone Motif • Heavy Crystal Beadwork Embellished Mesh	• Heavy Packaging Gum Tape • Double-Sided Tissue Tape • Double-Sided Foam Tape

BRANDING SOLUTIONS

1. Jacquard, Printed Woven Elastic (Micro Polyester yarn): Familiar for incredible softness & its hand feel. Comparatively, microfibers are two times finer than silk, three times finer than cotton,eight times finer than wool and one hundred times finer than a humanhair. Fabrics of microfibers can be wovento provide a degree of breathability, while at the same time have wind and water resistance.

2.Printed Woven Elastic& Neck Tape (Cationic PolyesterYarn): Anti-resistant, only less than polyamide, more elastic compared with traditional polyester/spandex with same composition. Color fadedness is strong due to its special cationic fiber; Color Stability is good than others.

3. Crochet, Jacquard,Printed Woven, Draw String (RecyclePolyester): Quick-drying, Lightweight, High-performance functionality, Strength, Lower Carbon Footprint, Reducing Landfill & Ocean Pollution.

4. Jacquard & Printed Woven Elastic (Recycle Nylon): The main advantage of recycled nylon is that it can be recycled indefinitely. Compared to recycledpolyester, this is a more circular option.The use of recycled nylonfabrics can significantly reduce CO2 emissions compared to virgin nylon. Recycling nylon also saves energy spent on manufacturing new virgin nylon.

5. Drawstring (VortexCotton Yarn): Fast speed and high output,short process flow and high production rate, Strong spinnability, suitable for raising Products, Simple operation and convenient joint.

6. Crochet Elastic(Monofilament Nylon Yarn): No problemsin hot climate – good UV resistance, Excellent tensile strength, Unaffected by wet or dry conditions, Attractive in appearance, 14 standard colors-any color is possible, It is perfect in fast drying in comparison to natural yarns and fibers.

7. Draw String & Neck Tape (OrganicCotton): Eco-friendly, Worker’s safety,better use of rain water, More power to the farmers.

8. Printed Woven Elastic & Neck Tape (Coolmax Polyester): Helps keep the wearer cool, dry and comfortable during any activity, Works in almost any garment sustainable product containing fibersmade with 100% recycled resources, Long Lasting product, Quick dry.

NARROW FABRICS

Using Materials: Micro Polyester yarn, Cationic Polyester Yarn, Recycle Polyester, Recycle Nylon, Vortex Cotton Yarn, Monofilament Nylon Yarn, Organic Cotton, CoolMax Polyester etc. Our products: Jacquard elastic, Crochet elastic, neck tape, Printed woven elastic.

LINGERIE ELASTIC

- Bra Hook & Eye Closures Picot
- Elastic Straps Drawstring
- Decorative Lingerie Trims
- Fold-Over Elastic (FOE)
- Transparent Strap Elastic
- Velet Elastic, Bra Strap Elastic
- Plush Back Band Elastic (Plush Elastic)
- Underwire Channeling (Casing)

RIBBON AND ELASTIC EMBOSSED

Embossed elastic and ribbon refers to woven or knit elastic tapes featuring raised, three-dimensional designs, logos, or geometric patterns on their surface. Popular variants for garment, athletic, and lingerie applications include geometric patterns, honeycomb prints, and custom-branded silicone logo releases

These embossed types are created using high-frequency heat machines, silicone printing, or specialized mold pressing that stamps the pattern directly onto the surface of the elastic. They offer both functional and aesthetic value:

- **Silicone/Rubber Embossing:** Produces thick, 3D patterns and logos that are water-resistant and do not deform or crack when stretched
- **Pattern Embossing:** Uses heated molds to impress geometric shapes (like hexagons, beehives, or honeycomb lines) directly into the fibers, providing a seamless visual effect
- **Functional Grip:** Silicone-embossed elastics are frequently used in athletic wear, cycling gear, and strapless garments to provide a slip-resistant grip

BRA CUP & SHOULDER PADDING

SHAPING & SUPPORT ESSENTIALS

SHAPING & SUPPORT ESSENTIALS ® High-quality bra cups and shoulder pads engineered for comfort shaping, and support, providing a smooth and enhanced silhouette in lingerie and apparel. Bra cups and shoulder pads are produced using specialized molding processes that shape high-density foam into smooth, supportive forms. They are then covered with soft fabric layers through lamination or stitching to provide comfort, durability, and a seamless finish.

BRA CUP & SHOULDER PADDING

Product Line	pcs/day	pcs/month
Shoulder Pads	30,000 Pair	7,80,640 Pair
Bra Cups	Bra Cups	4,16,000 Pair

Bra cups and shoulder pads are essential apparel components that help improve garment fit, structure, and comfort. Made from soft yet durable materials, they provide gentle support and shape while maintaining a natural look. Their lightweight design ensures ease of wear without adding bulk, making them suitable for a wide range of garments including bras, dresses, blouses, and fashion wear. Available in various sizes and styles, they blend seamlessly into garments and enhance the overall silhouette and finish

BRA CUP & SHOULDER PADDING

1. Premium Quality Materials: Made from soft, breathable, and skin-friendly fabrics for all-day comfort.
2. Perfect Shape & Support: Designed to enhance fit, provide smooth contouring, and improve garment structure.
3. Lightweight & Durable: Maintains shape even after repeated use and washing.
4. Versatile Application: Suitable for bras, blouses, dresses, gowns, and ethnic or western wear.
5. Easy to Stitch & Use: Flexible design allows quick insertion and secure placement.
6. Available in Multiple Sizes & Shapes: Customisable shapes to meet different garment and design needs.

RHINESTONE & STUDS

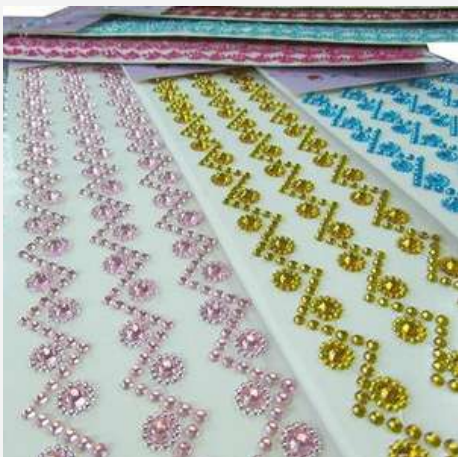

DECORATIVE EMBELLISHMENT ELEMENTS

Sparkling rhinestones and sturdy studs that add eye-catching detail and decorative flair to clothing, footwear, and accessories. Rhinestones and studs are produced using precision cutting and electroplating to achieve high shine and long-lasting finishes. They are then attached to garments through heat-press, prong-setting, or riveting techniques to ensure strong adhesion and decorative impact.

Product Line	pcs/day	pcs/month
1 Color	34,200	8,89,200
2 Color	29,000	7,54,000
